

**Annual Spring Event of the Kittitas Chapter  
Washington Farm Forestry Association**

Mark your calendars for

May 20, 2011

Hundley Family Tree Farm

Noon to ??

This year our chapter will be joining the Hundley Family in the dedication of the Hundley Conservation Easement. The Kittitas Conservation Trust, Washington Dept. of Fish & Wildlife, Yakama Nation and Bonneville Power Administration have worked together with the Hundley Family to protect 431 acres of premier fish and wildlife habitat along the upper Yakima River in northern Kittitas County while permitting the family to continue forest management on their property.

Please join us for lunch, which will be provided, an opportunity to enjoy the property's conservation values, and a short presentation.

**RSVP by May 6** is required so we have a headcount for lunch.

Specify number in party and any special needs

Please RSVP Patty O'Hearn

206-498-6765

cc Phil at [hessphil@msn.com](mailto:hessphil@msn.com)

509-952-0678

Also we will need about 6 chapter volunteers to man the registration desk, signing and assist with parking and other logistics. Please let Phil or Patty know if you can volunteer.

This will be a outstanding event to learn about forest stewardship and interact with the Hundley family, KCT and natural resource professionals who worked with the Hundley Family to establish the conservation easement.

**Directions:** Directly north of I-90 at exit 78, and follow signs.

Note: If you are not sure by May 6 if you can make it for the catered lunch, you can still attend, just bring your own lunch. New Members and Visitors are Welcome.
