INFORMATION AND REGISTRATION

## Are you Firewise?

**Aug. 2, Colville**  
**Aug. 9, Spokane**

WASHINGTON STATE UNIVERSITY  
 EXTENSION

Firewise 101 Workshop sponsored by:  
 Washington State Department of Natural Resources  
 Washington State University Extension

# Firewise 101 Workshop

**F**irewise 101 is an interactive educational event for homeowners and forest landowners to learn how to reduce the loss of property the next time a wildfire threatens.

## What Will I Learn?

- How individuals can reduce unnecessary losses from wildfires.
- How does a wildfire spread across the landscape and how home sites influence it.
- How to recognize wildfire hazards and reduce risks.
- There are plants that are more resistant to fire. Learn how to incorporate these species into your landscaping.
- All participants will complete a residential wildfire hazard assessment for their home. This is the same tool used by fire agencies to rate the survivability of a home.
